

FUNCTIONAL MATERIALS FOR HEALTHCARE

Current developments in biomaterials
and drug formulations research

January 28th, 2010
Old Mill - Turku, Finland

- 9:00 Registration and coffee
- 9:45 Opening of the Symposium
Chairman of the Society, Teemu Heikkilä
- 10:00 Bioactive glass scaffolds for bone regeneration
Julian Jones, Imperial College London, UK
- 11:00 Different biodegradable silica structures in drug delivery
Mika Jokinen, DelSiTech Ltd., Finland
- 11:30 Engineering bio-based materials at the nanoscale
Markus Linder, VTT Technical Research Centre, Finland
- 12:00 Lunch and poster session
- 14:00 Nanoparticles as delivery systems for bioactives
Thomas Rades, University of Otago, New Zealand
- 15:00 Coffee break
- 15:30 Lipid nanocapsules in drug delivery
Samuli Hirsjärvi, University of Angers, France
- 16:00 Acrylic pH-responsive microparticles for targeted gastrointestinal delivery
Abdul Basit, London School of Pharmacy, UK
- 16:45 Closing words of the Symposium
- 18:30 Symposium Dinner
